## Notice

This notice and the enclosed Material Safety Data Sheet (MSDS) are provided to assist you in the handling, processing and distribution of our product. We believe our materials are articles as defined in OSHA 29 CFR Part 1910.1200 “Hazard Communication Standard.” We consider this product to be safe under traditional industry processing conditions.

The information contained herein was developed from our supplier MSDS sheets, NTIS Annual Report or Carcinogens, Sax’s Handbook, “Dangerous Properties of Industrial Chemicals,” NIOSH Registry of Toxic Effects of Chemical Substances, U.S. Dept. of Health National Toxicology Program, American Conference of Industrial Hygienists TLV for Chemical Substances in the Work Environment.

We recognize that you may not be the person in your organization that needs this information. If not, please direct it to the personnel who are responsible.

We urge that you familiarize yourself with the enclosed MSDS. Also, that you provide instructions to your employees, agents, contractors, customer or others who may handle this product.

We value your business and want to be sure you have our current product safety information. If you need additional copies at any time or have any questions concerning the information, please let us know.
