

Flashing and Reglets

Copper Corners & End Dams

DRAWINGS FOR ILLUSTRATIVE PURPOSES ONLY

Copper Corners & End Dams

Hohmann & Barnard's Copper Corners & End Dams are pre-fabricated soldered inside corners, outside corners and end dams suitable for all H&B flashings. Simply place underneath flashing for the ultimate protection against moisture penetration.

Copper

- Corners and End Dams allow for smooth transition with flashing as opposed to 60 mil fabrics.
- Can be used with: Copper NA Flashing, Copper SA Flashing, C-Fab™ Flashing, and Copper Metal Flashing.

NOTE: Also available in **Stainless Steel** (for use with Mighty-Flash, Flex-Flash® Flashing, Textroflash™ Flashing, and Stainless Metal Flashing)

Copper Corners and End Dams

- Inside Corner
- Outside Corner
- End Dam

Corners and End Dams are packaged 25 pieces per box.

IMPORTANT: Since each construction project is unique, the appropriate selection and use of any product contained herein must be determined by competent architects, engineers and other appropriate professionals who are familiar with the specific requirements of the project in question.
